

# Wawinges Lodge at Crooked Lane Learning Center

Wawinges Lodge has two separate floors that can be reserved and is located near the entrance of the camp.

## Setting

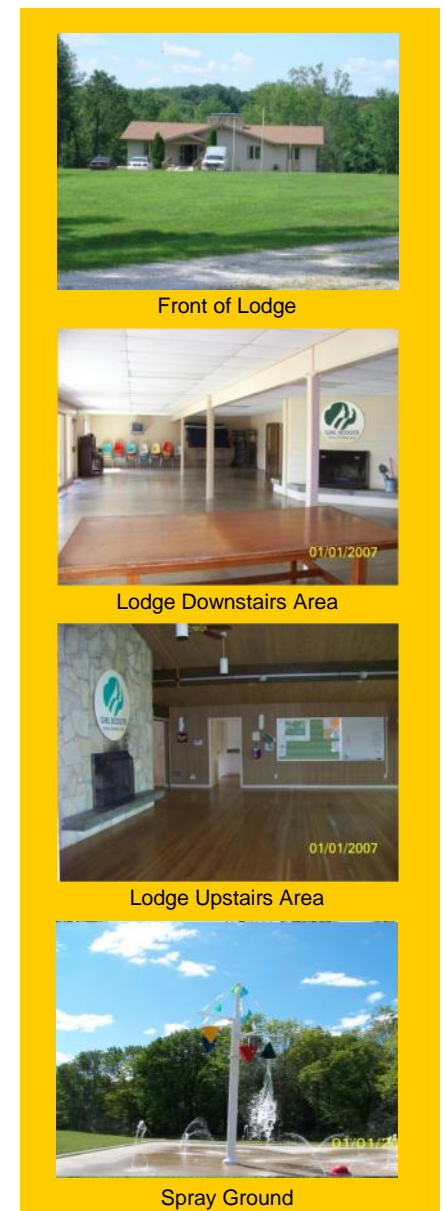

Wawinges Lodge overlooks beautiful forests and a 3-acre pond. Nearby, there is an amphitheater, a pavilion overlooking the pond, and a pavilion on the edge of the woods. The camp boasts a large area of pawpaw trees that ripen in the fall. The grounds have outdoor grills and fire pits that are perfect for outdoor cooking and gatherings.

## Site Features and Program Possibilities

Camp Crooked Lane is 226 acres of forested land with open areas, a stream, and a pond. There are labeled hiking trails throughout the woods. A self-led low ropes course is available to troops. The pond is a great place for fishing. Canoeing and archery are available seasonally (certified adults required). A boat dock that extends over the pond is helpful for aquatic study. Creeking is fun and easy using bridges that cross the creek. Wildlife including deer, turkey and mink can be observed. A spray ground offers relief from the summer sun. Other activities could include nature study, cooking, campfires, flag ceremonies, hiking, crafts, Girl Scout's Own, and mapping.
